

## Safety is everybody's responsibility.

- Children should hold hands with adults and stay right next to adults when walking anywhere in the parking lot. Small children can be invisible to drivers without an adult helping them.
- Walk (do not run) and look carefully before crossing anywhere there is a vehicle.
- Make eye contact with drivers to be sure they are aware you are there before you walk in front of a vehicle.
- Do not walk behind a vehicle that is running.
