

# BORDER LAND

## SCHOOL DIVISION

---

May 12, 2020

Dear Border Land Community,

As the spring sun begins to warm up, so does the desire to get outside and get active. We know how important physical activity and fresh air is, especially at a time like this. We want you to know that the playground spaces in Border Land School Division will begin to reopen this week.

The play structures will reopen, but as parents and guardians, you need to know and abide by the following information:

- The play structures are NOT being cleaned and sanitized.
- Social distancing must occur on the play structures.
- Hand sanitizer is to be provided by families and be used before and after playing on the structures.
- Regular maintenance checks WILL occur on all structures.

Border Land School Division will have signage at each location reminding everyone of these items.

If there is any change in this practice, you will be notified. Please also continue to visit Manitoba Health to receive accurate information at <https://manitoba.ca/covid19/>.

Please stay well.

Sincerely,

*Krista Curry*
