GODDARD HIGH SCHOOL ACADEMIC SUPPORT ICU LIST

What is Goddard High School Academic Support ICU list? ICU stands for Intensive Care Unit, just like in a hospital. The Goddard High School Academic Support ICU List is an academic support system for students and communication tool for teachers and parents and is built around a school-wide electronic database that tracks missing assignments. All students completing all assignments is the foundation of Goddard High School and this program. Students learn quickly if they have one missing or poor quality assignment, their grade is sick and needs attention.

Students with missing or poor-quality assignments have their names placed on the Goddard High School Academic Support ICU List that can be viewed by all staff members. Students are asked by a variety of staff members: "Who do you owe?" "What do you owe?" "What do you need?" "How can I help?" Staff members re-teach content material and provide students with extra assistance to complete their work: before school, during lunch, after school, etc. Names are removed from the Goddard High School Academic Support ICU List when assignments are completed and quality work has been done.

It is crucial that parents, teachers, and administrators are all on the same page and convey the message that "**All students will complete all assignments and do quality work.**" This idea goes along with our diploma plus concept where we expect all students to graduate college and/or career ready.

If your child's name is placed on the Goddard High School Academic Support ICU List:

- You will receive a text and/or an email message saying, "your child has been placed on the Goddard High School Academic Support ICU List – with the name of the assignment or an attachment of the assignment.
- Your child will be given an opportunity to complete the assignment on his/her own.
- If the work remains unfinished, additional arrangements may become necessary for your child to complete the assignment (e.g. before school, during lunch, after school, etc.).

We look forward to helping your child master the content they need to be prepared for future academic and career-oriented endeavors.
