Character Building Handbook

“Leading the Way for Life-Long Learners”

Dear Parents,

It is the partnership formed between home and school early in the education career of your children that ensures their learning success. It is our mission here at Jefferson School to provide an environment that allows a safe place for your child to come each day and feel secure. To set the tone for such we encourage and demand respect for self and others. To create an atmosphere where all are comfortable to grow and learn, all students must maintain a level of awareness that allows for the highest opportunities for growth in all areas: academically, as well as socially.

This Character Building Handbook (Code of Conduct) provides for all students, parents, teachers, staff members and administrators the basic rules and regulations that set the stage for the well-being of our school community. Building good character is contagious; the way the student behaves at school will result in good behavior at home and vice-versa. Also, having respect for self is as important as having respect for others.

We ask that you take the time to review the information stated here with your child; teachers will review the handbook with their students in class. When you complete the review, please sign the back page together with your child and return the signed form to the classroom teacher.

I am personally thanking you in advance your cooperation and support in this endeavor.

Sincerely,

Stephen Droske
Principal
