Overview & Resources

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students, and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high quality education. We encourage you to use these reports to:

- **Learn more** about the school and the district
- **Start conversations** with school community members and ask questions
- **Engage** with school communities to identify where schools are doing well and where they can improve

Important Notes for 2019-2020: The ongoing COVID-19 pandemic has had a significant impact on the way the NJDOE was able to measure school performance and student achievement for the 2019-2020 School Performance Reports. Some data is not available at all and other data, while available, may not look the same as it did in prior years. The NJDOE also recognizes that our existing data can't begin to measure the hard work and perseverance of the students, families, educators and community members during this difficult year. This past year has been unlike any other, and the NJDOE believes that it is critical to use the available data in the reports, along with other information collected directly within districts and communities, to start conversations, identify gaps in information, and begin to find ways to address the impacts of COVID-19 and ensure all students receive the support that they need.

The 2019-2020 School Performance Reports will not include the following data elements:

- Statewide assessment participation and performance (NJSLA, DLM, ACCESS for ELLs)
- Student growth Data
- Chronic absenteeism rates
- Progress toward English language proficiency
- ESSA Summative ratings or indicator scores
- Status in meeting annual targets or standards for ESSA indicators

A new "[Impact of COVID-19 on Data Availability](#)" resource summarizes which data is available, which data is not available, and which data may have been impacted. Notes are included throughout the School Performance Reports and the Reference Guide to explain where data is missing or impacted by COVID-19. Look for "Important Note for 2019-2020" sections.

School Performance Report Resources:

The NJDOE has several resource documents that can help you understand and use the School Performance Reports, which can also be found under the "Resource Documents" link at the top of the page:

Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

Enrollment Trends by Grade

This table shows the number of students enrolled by grade for the past three school years. Any students enrolled outside of the grades offered will be included in the total enrollment.

Grade	2017-18	2018-19	2019-20
PK	48	68	65
Total	48	68	65

Enrollment Trends by Student Group

This table shows the percentage of students by student group for the past three school years. Note that 2019-20 is the first year that data was collected for non-binary/undesigned gender and, as a result, the 2019-20 data may not be a true representation of the student population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5.

Student Group	2017-18	2018-19	2019-20
Female	35.4%	38.6%	21.5%
Male	64.6%	61.4%	78.5%
Non-Binary/Undesignated Gender			<1%
Economically Disadvantaged Students	4.2%	0.0%	3.1%
Students with Disabilities	75.0%	54.3%	69.2%

Climate and Environment

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories. In addition to the 2018-19 data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

Important note for 2019-20: Due to school closures as a result of [Executive Order 107](#), discipline data for the 2019-20 school year may not be comparable to prior or future school years and NJDOE recommends caution in making comparisons.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	N
Weapons	N
Vandalism	N
Substances	N
Harassment, Intimidation, Bullying (HIB)	N
Total Unique Incidents	N
Incidents Per 100 Students Enrolled	N

Police Notifications

This table shows, by incident type, the number of cases where an incident led to police notification.

Incident Type	Incidents Reported to Police
Violence	N
Weapons	N
Vandalism	N
Substances	N
Harassment, Intimidation, Bullying (HIB)	N
Other Incidents Leading to Removal	N

Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bullying (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

HIB Nature (Protected Category)	HIB Alleged	HIB Confirmed	Total HIB Investigations
Race	N	N	N
Religion	N	N	N
Ancestry	N	N	N
Gender	N	N	N
Sexual Orientation	N	N	N

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

Removal Type	Number of Students	Percent of Students	School Days Missed due to Out-of-School Suspensions
In-School Suspensions	0	0.0%	N
Out-of-School Suspensions	0	0.0%	
Any Suspension	0	0.0%

Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

Key terms for staff data:

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

Experience: Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

Out-of-Field: A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

Teachers – Experience

This table shows information about the experience of teachers assigned to this school and across the state. No teachers in New Jersey are teaching under emergency or provisional credentials as defined the United States Department of Education. The number of out-of-field teachers is the number of teachers who are potentially teaching outside of their area of certification.

Category	Teachers in School	Teachers in State
Total Number of teachers	9	119,170
Average years experience in public schools	17.0	12.3
Average years experience in district	13.0	11.0
Percentage of Teachers with 4 or more years experience in the district	77.8%	75.8%
Number of out-of-field teachers	0	2,276

Administrators – Experience (District Level)

This table shows information about the experience of administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	31	9,574
Average years experience in public schools	15.2	16.2
Average years experience in district	7.8	12.3
Percentage of Administrators with 4 or more years experience in the district	83.9%	77.9%

Student and Staff Ratios

This table shows ratios of students and staff members in the school and district. Ratios for librarians, nurses, counselors, and child study team members are only reported at the district level because many staff in these jobs are assigned only to the district and not to individual schools.

Ratio	School Ratio	District Ratio
Students to Teachers	7:1	13:1
Students to Administrators	N	184:1
Teachers to Administrators	N	14:1
Students to Librarians/Media Specialists		634:1
Students to Nurses		634:1
Students to Counselors		357:1
Students to Child Study Team Members		228:1

Per-Pupil Expenditures

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

[Link to District Summary of 2019-20 School-Level Per Pupil Expenditures by Source](#)

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

Clubs and Activities:

Ridgewood Public Schools offer a variety of co-curricular activities at all levels with Ridgewood High School sponsoring over 100 award-winning activities.

Staff and Professional Learning:

Professional development in Ridgewood is organized around the district's identified annual goals. New teachers participate in a rich orientation program that begins in the summer and extends across the school year. New teachers are further developed through our New Teacher Induction Program which includes structured professional development and support for the first four years of employment. Professional development days involve teachers in collaborative curriculum work, and the district supports teachers' participation in learning opportunities outside of Ridgewood. The district has made a strong commitment to Orton Gillingham training for its K-12 staff. RPS offers a robust inservice program taught by our own staff who have expertise on a variety of special topics. The district has also partnered with Great Schools Partnership to advance the goals of the district strategic plan.

Student Supports and Services:

The district offers an array of support services to meet the needs of diverse learners. This includes comprehensive programs for Special Education students, English Language Learners, students with 504 Plans and students with Health Plans. The district uses Intervention and Referral Services and offers Basic Skills Instruction. Guidance Counselors and Child Study Teams work closely with students and their families, and teachers consistently integrate differentiated instructional strategies. RPS have partnered with CarePlus of NJ, a fully licensed and accredited mental health care organization, to provide a school-based counseling program which directly supports students and their families. The therapists are experienced in youth development, therapy and case management and utilize a variety of effective models to develop skills and strategies for personal growth.

Parent and Community Involvement:

Parents and community members are involved through: Home and School Association, Federated Home and School Association, Learning Services Home and School Association, Booster clubs, Foundation, and Alumni Associations. During the 2019-20 school year, our parent organizations raised and donated \$600,427.86 in goods and services to the district.

School Safety:

Ridgewood Public Schools continue to add to our already significant school safety and security protocols. Our district-funded School Security Specialist was joined by a School Resource Officer, funded by the district and local municipality. All of our buildings have lock down shades installed throughout, building exterior management systems, and utilize a district-wide one button lockdown system.

Technology and STEM:

Students are afforded opportunities in STEM education from grades 3-12 through required and elective courses, and the middle schools and high school utilize makerspace classrooms to deliver relevant STEM curricula. Technology is integrated throughout the K-12 curriculum, and students in grades 2 through 12 operate on a one-to-one chromebook platform. Teachers are trained in technology applications to enhance the instructional experience, and significant investment has been made in instructional technology. RPS have implemented a significant number of technology based instructional tools to facilitate remote learning due to COVID-19. The district obtained various online teaching and learning tools to make virtual learning more efficient and meaningful. Through the use of technology and support from IT professionals and technology coaches, the district was fully prepared to provide instructional services to all students, and enhancements were implemented as needed.

Early Childhood Education:

The Ridgewood Public Schools offer an array of preschool programs to meet the needs of our youngest learners. Housed at Glen School, Ridgewood runs both self-contained and integrated preschool classes. In a self-contained setting, we run a preschool disabled class and a multiply disabled class. These two programs are locally funded and there is no waiting list for admission. We also offer a general education integrated preschool class that is tuition-based and includes both general education and special education students. This program is tuition-based for non-classified students and currently has a waiting list for general education students. All preschool programs run from 9:00-1:45 daily.

Learning During COVID-19:

Prior to the mandated school closure due to the pandemic, a team of administrators and staff developed the District Remote Instruction Plan, maximizing our resources in order to maintain continuity of instruction and meet NJDOE guidelines. The district goals were to engage students in essential learning through the application of grade-level academic knowledge and skills, while also enabling students to connect socially. Home instruction integrated an appropriate blend of synchronous and asynchronous activities into the student experience, and student submission of academic work was assessed consistently. Teachers provided direct instruction using a variety of virtual methods, and differentiations took place through provisions for student choice on certain assessments. Mental health wellness support was available from the school based mental health team, while resources and support were provided to families and staff by our School Based Mental Health Coordinator.

Other Information:

Glen School is an early childhood center serving infants and preschool children. It is home to the Ridgewood Public Schools' preschool special education programs. The public preschool special education programs are known as the Ridgewood Early Developmental (RED) Program and the Ridgewood Early Developmental Ridgewood Intensive Services (RED RISE) Program. The students enrolled in the RED Program and RED RISE Program are educated in a developmentally appropriate environment that targets the special needs of each individual student. The RED and RED RISE Programs are fully compliant with both state and federal regulations regarding special education and related services for preschool students with disabilities. The mission of Glen School is to provide a safe and developmentally appropriate environment for infants and preschool students. Specific to the RED and RED RISE Programs, the mission includes the provision of a free and appropriate public school education for preschool students who demonstrate developmental delays or disabilities. Following are the Glen School's belief statements. The preschool environment should be safe and nurturing for the young child. The preschool staff and families should work together in fostering the development of the young child. Instruction and curriculum should be developmentally appropriate to meet the individual needs of the preschool student. Preschool students learn by actively interacting with their environment, and therefore should be provided with numerous opportunities to practice their skills in real hands-on activities. The importance of play is integral in facilitating the development of social skills and communication skills. Preschool students with disabilities require and benefit from proactive early intervention services through the provision of an individualized and differentiated educational program that addresses the specific needs of the student and enables the student to develop to the fullest extent possible.
