

Teacher Spotlight

Ms. Krueger "Ms.K"

Ms. Krueger

Science (Chemistry)
Teacher

What is your favorite part of your job?

Making connections with students and seeing them grow while in my classroom.

Do you have a favorite student story?

One day, in the first week of school, as a brand new teacher I had a student look at me and say "You're the best teacher ever". They said, "I really mean that, I enjoy your class, I learn from it and think you're doing an amazing job." These kinds of comments and the relationships and impacts you make on your student's lives is what makes the job worth it.

What is something people would be surprised to know about you?

A surprising fact about me is that I have a huge fear of birds..

What do you think is the best part of the Coal Ridge Team?

The inclusiveness. All of the staff is very welcoming and it makes you feel like you have a family with your coworkers. There is always someone you can talk to whether it's for help with a student, or just to get something off your chest. You can truly tell that every staff member here wants the best for the kids and tries their hardest to achieve that goal.
