

Aug 17, 2022

Greetings Parents!

Welcome to the 2022-2023 school year!

Clayton County Public Schools will administer Measures of Academic Progress (MAP) Growth Assessments to students in grades 2-11 during the 2022-2023 school year. The MAP Growth assessments are given three (3) times during the school year: Fall, Winter, and Spring. Results will be sent home once your child takes the tests. For more information about MAP Growth, visit [NWEA.org/familytoolkit](https://www.nwea.org/familytoolkit).

### **What is MAP?**

- MAP Growth assessments are computer-based assessments that adjust in difficulty according to your child's responses to the test items. If your child answers a question correctly, the next question is more challenging. If they answer incorrectly, the next one is easier.
- These results provide immediate and accurate information about your child and provide a more complete picture of what your child knows and is ready to learn—whether it is on, above, or below their grade level.
- MAP Growth scores help teachers check students' achievement and growth. Teachers use the results to tailor classroom lessons and set goals for students.

During the week of August 22nd, your child will take MAP Growth assessments. Students in grades 3 - 5 will take the assessments in Reading, English Language Arts (ELA), Math, and Science.

Please do not hesitate to contact your child's teacher(s), or principal should you have any questions regarding MAP Growth Assessments.

Sincerely,

Kemp Elementary School
